Speakers

Keynote

Prof. Suzanne Wilkinson

Associate Dean Research
Professor of Construction Management
School of Built Environment
Massey University, New Zealand

Facilitators

Prof. Rajib SHAW

Professor
Graduate School of Media and Governance
Keio University, Japan

Associate Professor Thayaparan Gajendran

Deputy Head of School- Research (School of Architecture and Built Environment)
Assistant Dean – Work Integrated Learning (WIL) (College of Engineering, Science and Environment)
The University of Newcastle, Australia

Dr Chaturangane Jayakody

Post-doctoral researcher- Global Disaster Resilience Centre,
University of Huddersfield, UK
Editorial Assistant- International Journal of Disaster Resilience in the Built Environment

Dr Gemma Hemming

Journals Commissioning Lead, Emerald Publishing, UK.

Professor Richard Haigh

Co-Director, Global Disaster Resilience Centre,
University of Huddersfield, UK
Editor, International Journal of Disaster Resilience in the Built Environment

Professor Dilanthi Amaratunga

Co-Director, Global Disaster Resilience Centre,
University of Huddersfield, UK
Editor, International Journal of Disaster Resilience in the Built Environment

Dr Harkunti P. Rahayu

Development Management and Policy
Planning Research Group
School of Architecture, Planning and Policy
Development, Institute Technology of Bandung, Indonesia

Dr Nuwan Dias

Research Fellow
Global Disaster Resilience Centre, University of Huddersfield, UK

Application Deadline

02nd June 2021

Notification of Results

Applicants will be notified by email 2 weeks prior to the workshop

Eligibility Criteria:

Indonesian citizens affiliated to a Higher Education Institute / scientific institution as a member of staff or registered postgraduate research student (Indonesian citizens affiliated to a higher education institution living abroad can also apply)

Quality Assessment

- Experience and relevance of the applicant's research area to the workshop
- Motivation and contribution to the aims of the workshop
- Description of the long-term impact expected through the participation in the workshop
- Ability to disseminate workshop's outcomes

Equal Opportunities

The British Council/University of Huddersfield/ITB is committed to equal opportunities and diversity in all its activities and this includes the avoidance of any bias in the assessment of applications due to gender, disability, racial or ethnic origin, sexual orientation, or religious belief. Participants' selection undertaken by workshop organisers must not contravene this policy. Extra support to enable participation of early career researchers with special needs will be given.

Audience

- Indonesian researchers, experienced or novice, staff or postgraduate, who have or will soon have research they wish to write-up for scholarly publication in peer reviewed journals
- Researchers can be cross-disciplinary or have a science, technology, engineering, and mathematics, arts and humanities, or social sciences focus
- For researchers working in disaster risk and related subject areas

Skills gained

- Develop writing skills and confidence writing for journals
- Understand editorial processes and what editors look for in papers
- Understand bibliometrics, quality and impact indicators
- Learn best practices for submitting a paper and completing a peer review

Organised by

- Global Disaster Resilience Centre, University of Huddersfield, UK
- Institute of Technology Bandung, Indonesia
- University of Andalas, Indonesia
- 2019 Newton Prize for Indonesia
- Government of Indonesia
- British Council Newton Fund Impact Scheme
- British Council Newton Fund Institutional Links Scheme
- Emerald Publishing

Acknowledgement

This workshop is supported by the 2019 Newton Prize for Indonesia grant AAM002715, under the UK Newton Fund.

Newton Fund

This project is supported by the 2019 Newton Prize for Indonesia grant AAM002715, under the UK Newton Fund.

The Newton Prize was launched in 2016 to recognise the excellent research and innovation the Newton Fund has invested in since its launch in 2014. It celebrates the best partnerships between the UK and Newton Fund countries, and encourages new international collaborations to address some of the world's most pressing challenges.

The Newton Fund builds outstanding research and innovation partnerships with select countries in Africa, Asia and Latin America to support economic development and social welfare, tackle global challenges and develop talent and careers. The fund is managed by the UK's Department for Business, Energy and Industrial Strategy (BEIS), and delivered by UK and international partners. UK investment is matched by investment and resources from partner countries.
